

# Newham's Hidden Gems

All locations are approximate.  
Includes blue and green spaces that are managed and cared for by volunteers or charitable organisations.

Some gardens are private or have restricted opening times. Others are nature conservation volunteering groups rather than sites. Please check before visiting. CG stands for Community Garden.

Newham has a growing number of community-run gardens, allotments, wildlife-rich green and blue spaces as more residents are coming together to clean up and transform unloved, under-used areas into inspiring, and biodiverse places for everyone.

Each place is unique, reflecting its local community and is open to all ages. Enjoy making friends, meeting neighbours, learning new skills, harvesting home-grown food and supporting local wildlife.

Click on the garden name or number for more information from their web page.
